### Register LISTSERV Password

Enter your email address and the desired password, then click on the "Register Password" button. If you already had a LISTSERV password but cannot remember what it was, this procedure will send you an email with a link to confirm your identity and will replace your existing password with the new one you will be entering below.

- **Email Address**: joepublic@example.com
- **Password**
- **Password (Again)**: (Verification)

[Register Password] button
You will observe a confirmation message from LISTSERV stating,

“For your protection... a message was sent to your email address”.

Log into your email and retrieve the message from

ACM LISTSERV Server (15.0)
LISTSERV@LISTSERV.ACM.ORG

When you open the email, there will be a message that will look like the window on the right.

You can either click on the URL link or follow the set of Alternate instructions for confirming the password reset.

Your command:

PW REP ********

requires confirmation. To confirm the execution of your command, simply point following URL:

http://listserv.acm.org/scripts/wa.exe?OK=2050DED3

Alternatively, if you have no WWW access, you can reply to the present message (without the quotes) as the text of your message.

Just the word "OK" - do not retype the command. This procedure will work with a that fully conforms to the Internet standards for electronic mail. If you rec message, try sending a new message to LISTSERV@LISTSERV.ACM.ORG (without using function - this is very important) and type "ok 2050DED3" as the text of your message.

Finally, your command will be cancelled automatically if LISTSERV does not receive confirmation within 48h. After that time, you must start over and resend the confirmation code. If you change your mind and decide that you do NOT want to command, then simply discard the present message and let the request expire on i

Log in with the email address you used to register your list with and simply key in the new password and you’re all set.
